INFORMATION!

The project focuses on equipping higher education students with AI-driven skills for Industry 5.0. It promotes sustainable entrepreneurship through innovative curricula and university-based incubators. By bridging academia and SMEs, the project advances green innovation and supports the EU's objectives for digital transformation and sustainability.

Agreement number:
2024-1-RO01-KA220-HED-000246238

TARGET GROUPS

Primary

- ✓ HED students (at BSc. and MSc. Level)
- ✓ HED academic and technical staff
- ✓ HED stakeholders (support staff, administrators, university boards and councils, local authorities, education policymakers, etc.)

Secondary

- ✓ SMEs representatives – workers, engineers, technicians, stakeholders
- ✓ Entrepreneurs willing to engage in AI/Industry 5.0 field, chamber of commerce members, industrial entrepreneurs

OBJECTIVES

- To enhance digital competencies in AI and foster sustainable entrepreneurship through innovative curricula and AI-driven Industry 5.0 incubators in universities
- To equip students and SMEs with practical tools and knowledge by promoting green practices in alignment with EU goals for digital transformation and sustainability.
